date 26/02/09	version 3b/3	REMARKS band plays fairly close to audience. Distance from piano to backdrop should be appr. 5m. Hazer or smoke would be nice. Please check with band. Band doesn't bring any equipment.		Uplights: pinpoint par36s are ideal. If these are not available, another small fixture will do as well (i.e. 500w PC or similar) Check position and focus with the band.
